WEBSTER REPORTS FOURTH QUARTER 2018 EARNINGS OF \$1.05 PER SHARE

WATERBURY, Conn., January 24, 2019 - Webster Financial Corporation (NYSE: WBS), the holding company for Webster Bank, N.A. and its HSA Bank division, today announced earnings applicable to common shareholders of \$96.7 million, or \$1.05 per diluted share, for the quarter ended December 31, 2018 compared to \$67.7 million, or \$0.73 per diluted share, for the quarter ended December 31, 2017. Adjusting for \$4.6 million related to a gain on the sale of six banking centers, earnings per diluted share would have been \$1.01.

“Webster’s results in the fourth quarter and in all of 2018 demonstrate the positive outcomes in executing our long-term strategy,” said John R. Ciulla, president and chief executive officer. “Fourth quarter revenues grew more than 14 percent from a year ago while revenue growth was 13 percent for all of 2018, and we earned well in excess of our cost of capital.”

Highlights for the fourth quarter of 2018 compared to prior year:

- Revenue of \$310.3 million, an increase of 14.5 percent, including net interest income of \$237.1 million, an increase of 15.7 percent.
- Loan growth of \$942 million, or 5.4 percent, with growth of \$1.2 billion, or 11.6 percent, in commercial and commercial real estate loans.
- Deposit growth of \$865 million, or 4.1 percent, with growth of \$702 million, or 13.9 percent at HSA Bank.
- Net interest margin of 3.66 percent, up 33 basis points.
- Pre-tax, pre-provision net revenue growth of \$35.6 million, or 35.6 percent, led by HSA Bank’s growth of 56.6 percent.
- Efficiency ratio of 56.2 percent (non-GAAP) compared to 59.5 percent.
- Annualized return on average common shareholders’ equity of 14.31 percent compared to 10.66 percent; annualized return on average tangible common shareholders’ equity (non-GAAP) of 18.22 percent compared to 13.85 percent.

“Continued investments in our businesses and disciplined expense control has generated positive operating leverage,” said Glenn MacInnes, executive vice president and chief financial officer. “Revenue growth has exceeded expense growth over the past seven quarters, and our full year 2018 efficiency ratio of 57.7 percent improved more than 250 basis points from a year ago.”

Non-interest income increased \$2.6 million to \$21.6 million, primarily due to 10.6 percent growth in accounts over the past year. Non-interest expense increased \$2.2 million to \$31.1 million, primarily due to account growth and expanded distribution.

Pre-tax, pre-provision net revenue increased \$3.4 million to \$36.5 million in the quarter as compared to prior year. Net interest income increased \$4.7 million to \$102.1 million, primarily due to growth in deposit balances, coupled with improved interest rate spreads on deposits. Non-interest income increased \$4.4 million to \$31.2 million resulting from net proceeds from the sale of six banking centers, coupled with growth in deposit and loan fees, partially offset by lower mortgage production and related returns on mortgage banking activities. Non-interest expense increased \$5.7 million to \$96.8 million as a result of higher compensation-related expenses and continued investments in technology.

Consolidated financial performance:

Quarterly net interest income compared to the fourth quarter of 2017:

- Net interest income was \$237.1 million compared to \$204.9 million.
- Net interest margin was 3.66 percent compared to 3.33 percent. The yield on interest-earning assets increased by 49 basis points, and the cost of funds increased by 18 basis points.
- Average interest-earning assets totaled \$25.8 billion and grew by \$952 million, or 3.8 percent.
- Average loans totaled \$18.4 billion and grew by \$922 million, or 5.3 percent.
- Average deposits totaled \$21.9 billion and grew by \$0.9 billion, or 4.1 percent.

Quarterly provision for loan losses:

- The provision for loan losses was \$10.0 million, compared to \$10.5 million in the prior quarter and \$13.0 million a year ago.
- Net charge-offs were \$9.5 million, compared to \$6.0 million in the prior quarter and \$14.8 million a year ago. The increase from prior quarter is primarily due to increased commercial non-mortgage charge-offs. The ratio of net charge-offs to average loans on an annualized basis was 0.21 percent, compared to 0.13 percent in the prior quarter and 0.34 percent a year ago.
- The allowance for loan losses represented 1.15 percent of total loans at December 31, 2018, compared to 1.16 percent at September 30, 2018 and 1.14 percent at December 31, 2017. The allowance for loan losses represented 137 percent of nonperforming loans compared to 139 percent at September 30, 2018 and 158 percent at December 31, 2017.

Quarterly non-interest income compared to the fourth quarter of 2017:

- Total non-interest income was \$73.2 million, compared to \$66.0 million, an increase of \$7.1 million. This reflects an increase in other of \$4.3 million driven by a \$4.6 million gain related to the sale of six branches, \$2.6 million in HSA fee income driven by account growth of 11 percent, and \$1.4 million in loan related fees due to prepayment, line of credit and loan servicing fees, and is offset by a decrease of \$1.2 million in mortgage banking activities driven by lower originations.
-

Quarterly non-interest expense compared to the fourth quarter of 2017:

- Total non-interest expense was \$174.8 million, compared to \$171.0 million, an increase of \$3.8 million. This reflects an increase of \$2.8 million in compensation and benefits due to strategic hires, annual merit increase and higher medical costs, \$2.0 million in technology/equipment due to higher service contracts to support infrastructure and depreciation, and \$1.0 million increase in marketing due to advertising and promotions, offset by a decrease of \$1.3 million in deposit insurance primarily related to a surcharge assessment ending as of the end of the third quarter of 2018. Additionally, the prior year included \$3.8 million in preferred stock redemption costs and \$2.6 million for a one time cash bonus paid to employees.

Quarterly income taxes compared to the fourth quarter of 2017:

- Income tax expense was \$26.7 million, compared to \$17.0 million and the effective tax rate was 21.3 percent, compared to 19.6 percent.
- The higher effective tax rate in the quarter reflects discrete tax benefits recognized a year ago, including the \$7.8 million net benefit related to the state deferred tax asset revaluations and the Tax Cuts and Jobs Act (TCJA) enacted during that period, partially offset by the reduction of the U.S. corporate tax rate in 2018 as a result of the TCJA.

Investment securities:

- Total investment securities were \$7.2 billion, compared to \$7.2 billion at September 30, 2018 and \$7.1 billion at December 31, 2017. The carrying value of the available-for-sale portfolio included \$95.9 million of net unrealized losses, compared to \$105.1 million at September 30, 2018 and \$37.1 million at December 31, 2017. - Total loans were \$18.5 billion, compared to \$18.3 billion at September 30, 2018 and \$17.5 billion at December 31, 2017. Compared to September 30, 2018, commercial real estate loans increased by \$155.8 million, commercial loans increased by \$31.6 million, and residential mortgages increased by \$1.6 million while consumer loans decreased by \$44.5 million.
 - Compared to a year ago, commercial loans increased by \$806.1 million and commercial real estate loans increased by \$403.3 million, while consumer loans decreased by \$193.5 million and residential mortgages decreased by \$74.2 million.

Asset quality:

- Total nonperforming loans were \$154.8 million, or 0.84 percent of total loans, compared to \$152.7 million, or 0.83 percent, at September 30, 2018 and \$126.6 million, or 0.72 percent, at December 31, 2017. Non-GAAP Financial Measures

In addition to results presented in accordance with GAAP, this press release contains certain non-GAAP financial measures. A reconciliation of net income and other performance ratios, as adjusted, is included in the accompanying selected financial highlights table.

We believe that providing certain non-GAAP financial measures provides investors with information useful in understanding our financial performance, our performance trends and financial position. We utilize these measures for internal planning and forecasting purposes. We, as well as securities analysts, investors, and other interested parties, also use these measures to compare peer company operating performance. We believe that our presentation and discussion, together with the accompanying reconciliations, provides a complete understanding of factors and trends affecting our business and allows investors to view performance in a manner similar to management. These non-GAAP measures should not be considered a substitute for GAAP basis measures and results, and we strongly encourage investors to review our consolidated financial statements in their entirety and not to rely on any single financial measure. Because non-GAAP financial measures are not standardized, it may not be possible to compare these financial measures with other companies' non-GAAP financial measures having the same or similar names.

Reconciliations to GAAP Financial Measures

The Company evaluates its business based on certain ratios that utilize tangible equity, a non-GAAP financial measure. Return on average tangible common shareholders' equity measures the Company's net income available to common shareholders, adjusted for the tax-effected amortization of intangible assets, as a percentage of average shareholders' equity less average preferred stock and average goodwill and intangible assets. The tangible equity ratio represents shareholders' equity less goodwill and intangible assets divided by total assets less goodwill and intangible assets. The tangible common equity ratio represents shareholders' equity less preferred stock and goodwill and intangible assets divided by total assets less goodwill and intangible assets. Tangible book value per common share represents shareholders' equity less preferred stock and goodwill and intangible assets divided by common shares outstanding at the end of the period.

The efficiency ratio, which measures the costs expended to generate a dollar of revenue, is calculated excluding foreclosed property expense, amortization of intangibles, gain or loss on securities, and other non-recurring items. Core deposits express total deposits less time deposits. Accordingly, these are also non-GAAP financial measures.

The Company believes the use of these non-GAAP financial measures provides additional clarity in assessing the results of the Company. Other companies may define or calculate supplemental financial data differently. See the tables below for reconciliations of these non-GAAP financial measures with financial measures defined by GAAP.
